Vu Duc Giang

Full Stack Developer

0384043718 | ducgiang1.nd1808@gmail.com

SUMMARY

I'm a full stack developer with over 3 years of experience in Front-End Web Development and C#.NET-related technologies, with good understanding of OOP methodologies, SOLID principles.

Learning new languages and technologies is what I am passionate about. A proactive team player who enjoys collaboration and problem-solving.

TECHNICAL SKILLS

Languages: C#, JavaScript, HTML, CSS, SQL
Frameworks/Platforms: VueJS, jQuery, Bootstrap, Tailwind, ASP.NET MVC, Web API
Database Management Systems: MS SQL Server, MySQL, MongoDB
Tools: Git, TFS, Jira

EDUCATION

VNU Hanoi - University of Engineering and Technology　　　　2019 - 2023

Major: Information Technology
Degree grade: Distinction

EXPERIENCE

MISA Software　　　　Jun 2022 - Present

Full Stack Developer

Project: TaskGo

- Developed and maintained web applications using C# .NET.
- Enhanced front-end features using Vue.js for a seamless user experience.
- Collaborated with teammates to clarify project requirements.
- Designed and optimized database schemas to improve system performance.
- Developed import/export features using RabbitMQ and Socket for seamless data integration.
- Troubleshot, debugged, and modified existing programs to enhance performance
- Created technical documentation for onboarding new developers.

Project: SalaGov

- Developed core functionalities in C#.NET & Vue.js.
- Maintained a productivity rate 1.5 times higher than the project's average, ensuring efficient and timely task completion.
- Implemented payroll and tax calculation functionalities using SpreadJS, delivering an intuitive, Excel-like interface that enhanced user experience and operational efficiency.
- Design database schema for app.

Project: Cegov

- Develop and fix the application's defect base on requirements.
- Collaborated with team members to ensure successful completion of projects..
- Performed unit testing, debugging and code refactoring.
- Improved application performance and optimized user experience.
- Utilized MySQL for database design, queries, and data management.

Project: Qlts

- Develop and maintain a suite of ASP.NET MVC web applications.
- Designed and implemented RESTful APIs to support web and mobile application integration.
- Develop modules of the system.
